

SY Rowyn is a proprietary wheat seed developed by Syngenta and distributed by Alliance Seed under exclusive license.

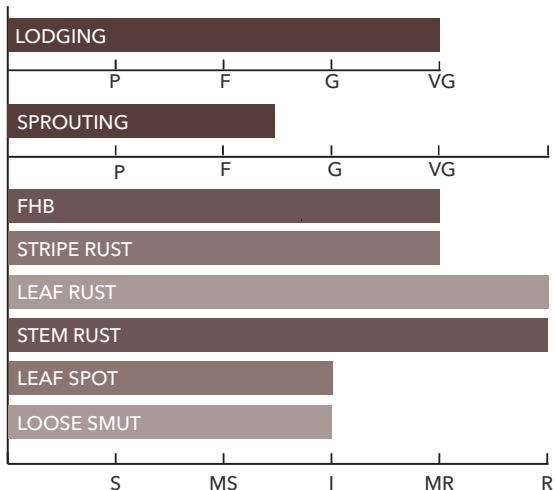

## GET GROWIN' WITH SY ROWYN

SY Rowyn offers wheat growers consistently high yields, good straw strength, and very good disease resistance, including strong tolerance to FHB infection. SY Rowyn is a variety that Canadian producers can use to push their wheat yields higher while maintaining access to milling markets.

### SY ROWYN YIELD & PROTEIN

### SY ROWYN LODGING, SPROUTING, & DISEASE RATINGS
